PERSICO TAKES OVER A US MOULD MAKER

The Italian manufacturer of rotomolding tools Persico announced the takeover of Precision Mold Services. Founded in 1999 in Blaine, Minnesota, the US company is a rotomolding mold maker with capabilities in both CNC mold manufacturing and mold revisions/maintenance/repairs.

Following the takeover, Precision Mold Services will change its name to Persico Rotomolding USA.

The current equipment and employees of Persico Rotomolding USA based in Rochester Hills, Michigan, will move to Minnesota to merge all synergies into a single plant, combining the technical expertise and capabilities of both companies. The existing Persico plants in Michigan (Rochester Hills and Shelby Township, Michigan) will continue their operations focused on the automotive industry.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
