MONZESI: A PATH TOWARDS AN EVEN MORE SUSTAINABLE FUTURE

In order to support the company's ambitious growth plans, and above all to do so in a sustainable way, Monzesi announced the change of their corporate structure to Monzesi S.p.A. Benefit Corporation. Therefore, their statute includes the intentions, which have always been supported by Monzesi, to create not only economic value but also a positive and measurable impact on their human capital, community and the environment. Sustainability is thus officially becoming an integral part of their business model, which will be communicated transparently and responsibly by redacting an annual sustainability report.

The Monzesi Forest: As part of this important step, on behalf of their customers, suppliers and closest collaborators, Monzesi planted the first 100 Beech Trees to mitigate the carbon footprint of the company. For every new Monzesi machine sold, more trees will be planted across Italy.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
