TRAIN WHEEL AND WHEEL ASSEMBLY BALANCING MACHINES

Model VBS2000

Cemb is supplying balancing machines to the railway market that are capable of satisfying the requirements in an accurate and reliable way. The technical solutions provided enable us to exceed results currently achievable in the market. Our balancing machines are fully equipped with a wheel self-centring chuck, hydraulic lift for loading/unloading and marking system.

- Model equipped with lifter, unbalance measuring unit and centering obtained on the outer wheel diameter;
- Complete with two pneumatic arms used for a stamp marking (on the angular position of the residual unbalance) and marking obtained by a micro-percussion unit.

- Model equipped with measuring unit, marking unit and centering obtained on the inner diameter of the wheel;
- Complete with anthropomorphic robot for a bar-code reading, RUN OUT measuring system and marking obtained by a micro-percussion unit.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
