VIOTTO RV SURFACE GRINDING MACHINES

The lineup of Monzese surface grinding machines is refreshed and expanded again: the vertical RV models, renewed both in terms of technology and aesthetics, have a new compact design aimed at improving ergonomics, access to the machine for maintenance, and offering an elegant body thanks to the integration of the electrical panel. Designed for finishing brake discs, blades, inserts, ceramic parts, rotors and stators, pump covers etc. they enjoy all the advantages of a fully automated cell with loading/unloading robots, demagnetizers and dryers, without giving up the flexibility of a quick part changeover in order to convert production to parts with different characteristics or dimensions. An automatic wheel dresser completely redesigned to adapt to all the main dressing needs combined with an intuitive software for the regulation of all the main machine parameters push the Viotto line to the top in the automation world. Also available horizontal RO models, with a lineup designed to meet any grinding process. Work your pieces faster and more efficiently, choose Viotto and experience the difference!

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
