About us

Metalarredo was founded in 1981 and from the beginning it is **professionally specialized in the lighting sector.**

We manufacture LED lamps and lighting systems for home, retail and contract sectors. Our products are designed to **enhance all interior spaces.**

Our company comprises a team of employees who **every day invest passion, commitment and expertise** to continue to evolve and respond to specific customer requirements, both in Italy and abroad.

We love challenges, we are willing to put ourselves on the line and this allows us to never lose sight of the quality of the product, in every small and precious detail.

We combine design with quality to offer tailor-made, discreet and elegant solutions.

Our philosophy

Mission

Our main goal is always the customer satisfaction. We work by finding the **right balance between innovation and energy efficiency**, with a focus on service and support.

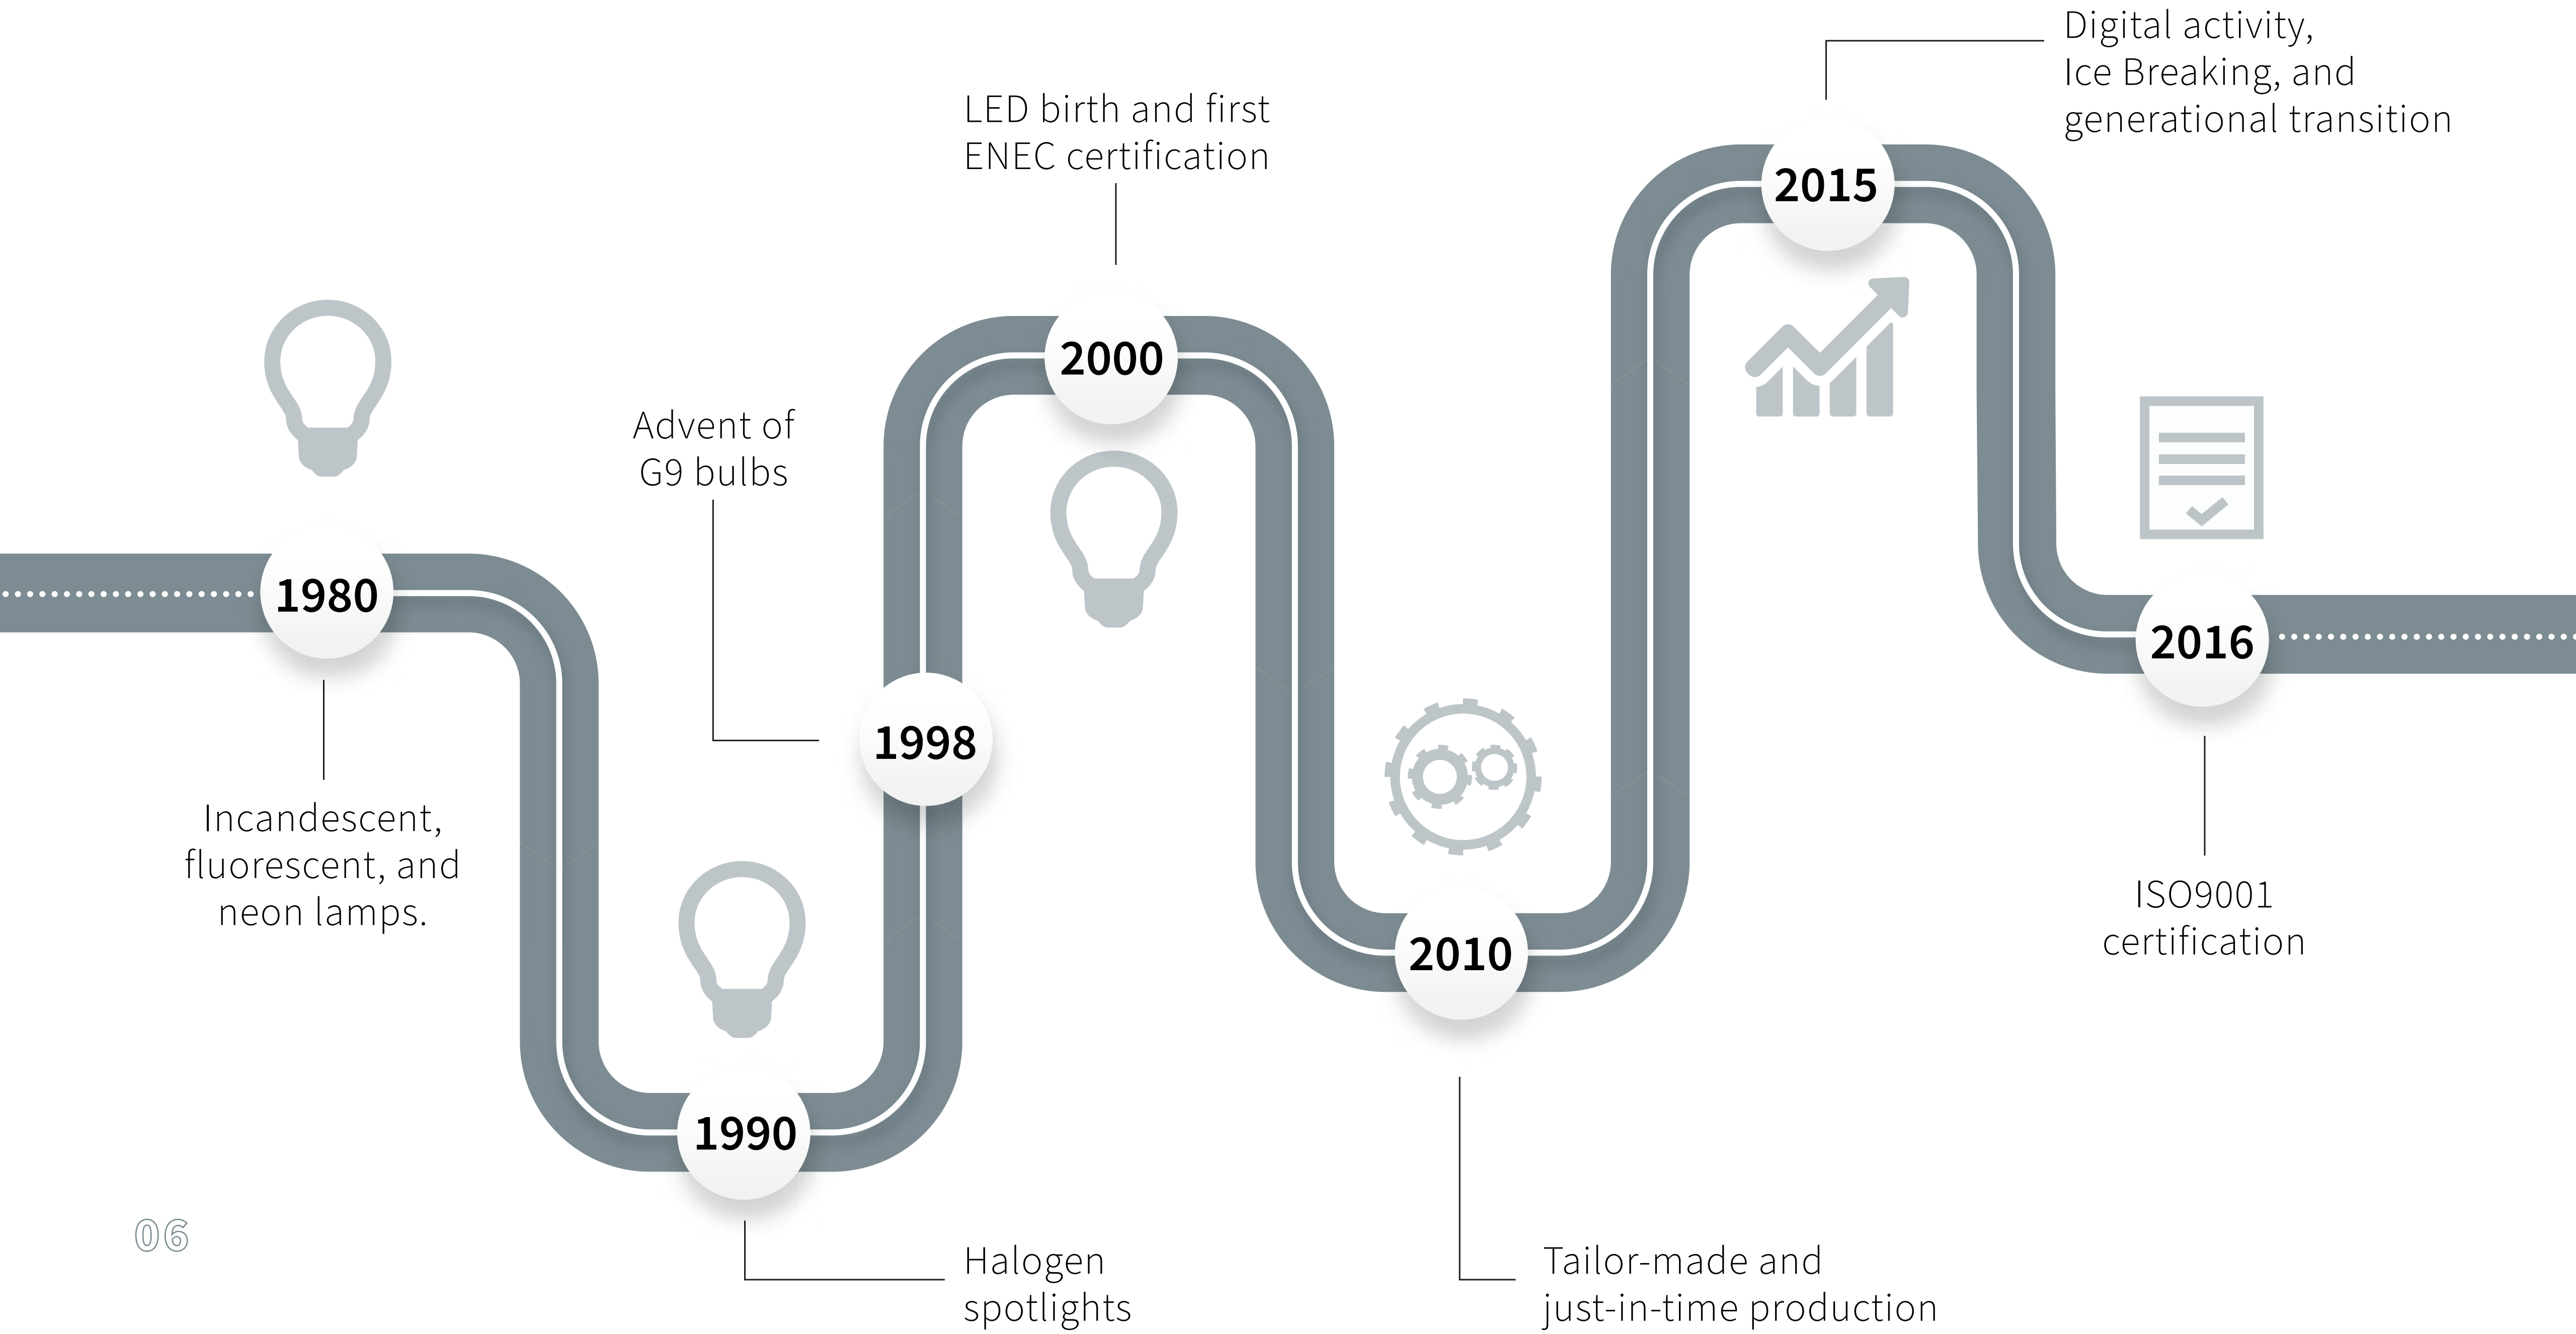

Vision

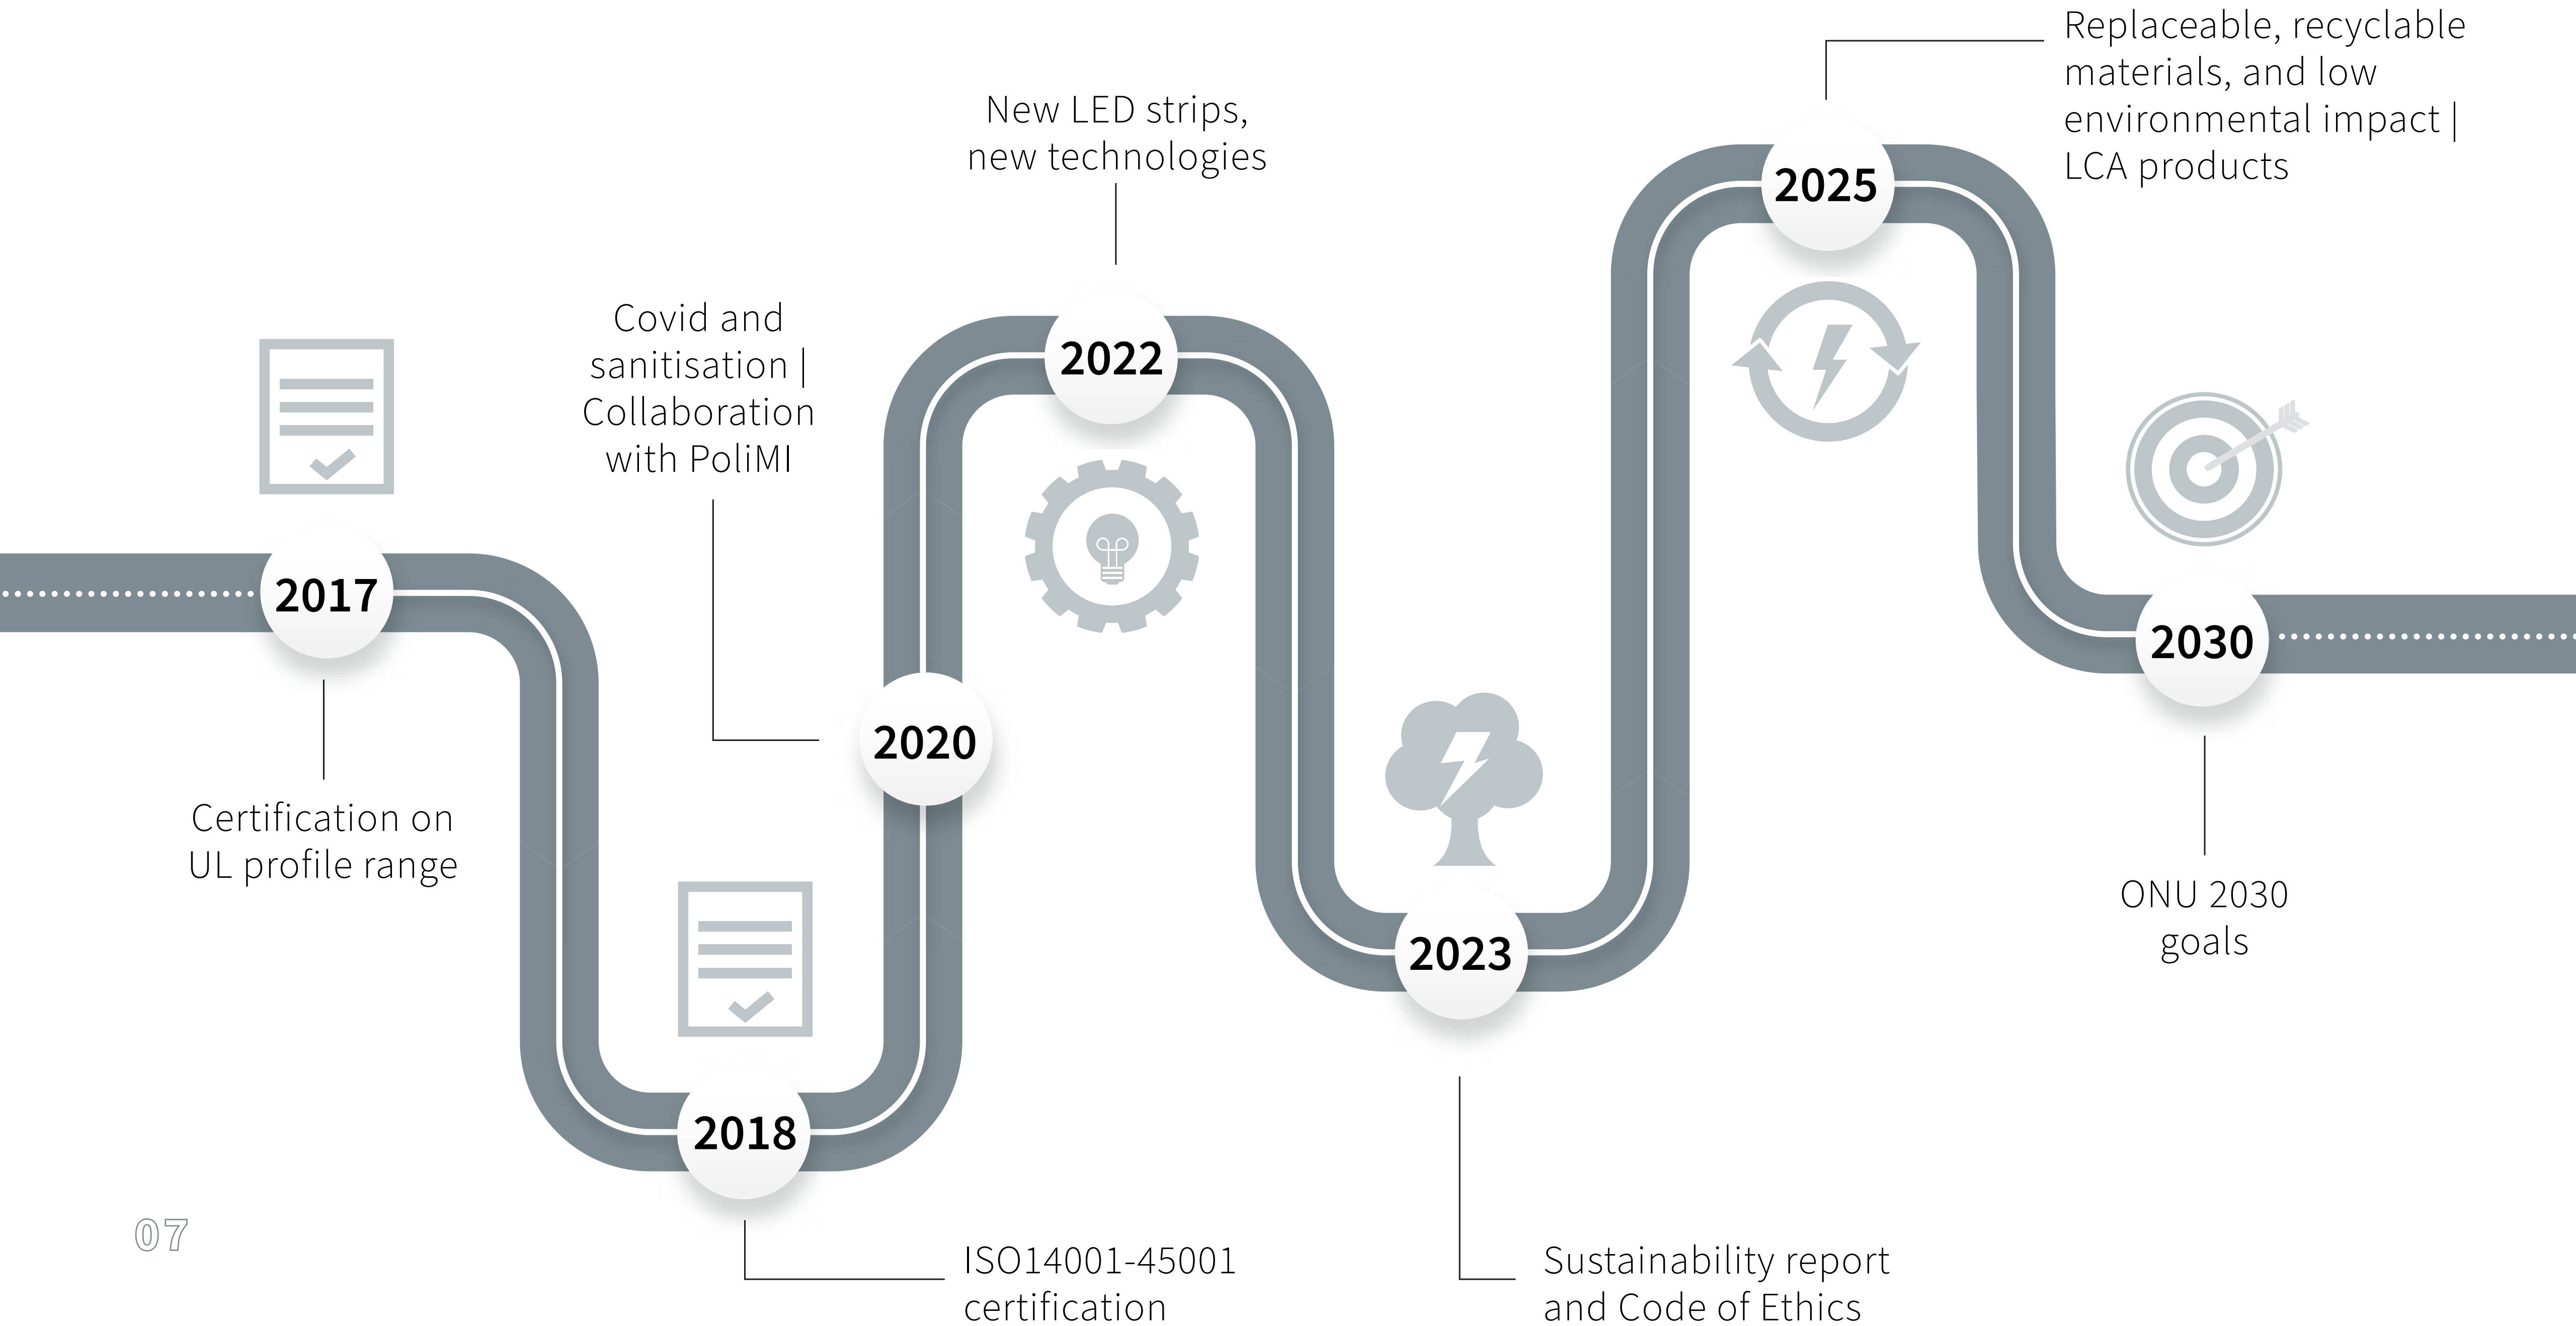

We research, design, and create our products to **give emotions through light**, a true complement of furnishing that adds value to the ambience you live in every day.

Values

Technical preparation, continuous **professional learning**, **creativity**, **innovation**, and **environmental awareness**.

In the
right light,
everything
gains value.

Create your space,
shape your furniture
elements, and compose
your special corner

We add the value.

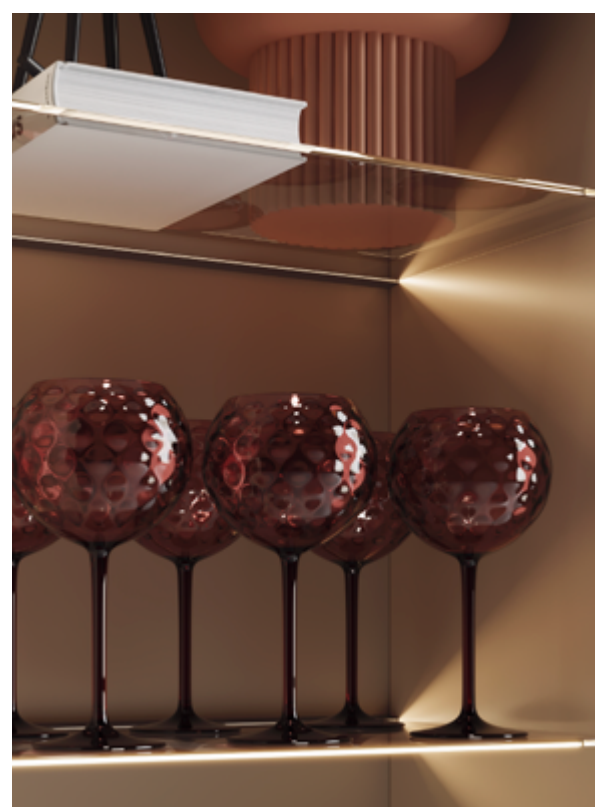

Kitchen

From countertops to shelves, from base units to cabinets, from wall to ceiling: for kitchens we offer a range of lighting products designed and manufactured to **enhance one of the most lived-in rooms in the home.**

Bathroom

Our LED solutions are designed first and foremost to be **effective**, but also to **enrich various ambiances.** For bathrooms we offer lamps, spotlights, strips, and profiles for mirror, shower, furniture, and walls.

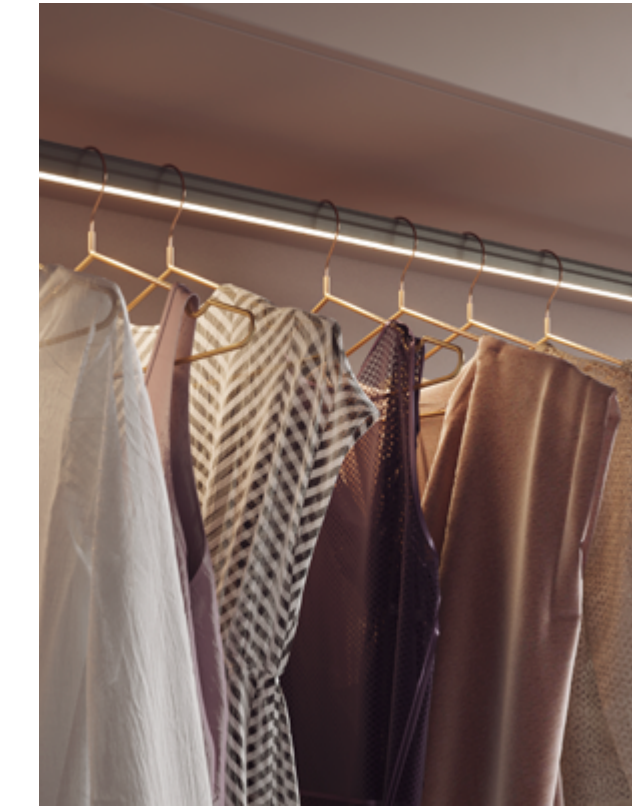

Night&Day

We propose lighting designs suitable for **every type of indoor environment.** For living and sleeping areas, our products can be incorporated to enhance wardrobes, beds, beside tables, boiseries, sofas, and sideboards

Eldom

Our LED technology is an **excellent solution for large and small household appliances** such as refrigeration counters, hoods, ovens, hobs, washing machine, dishwashers, and displays.

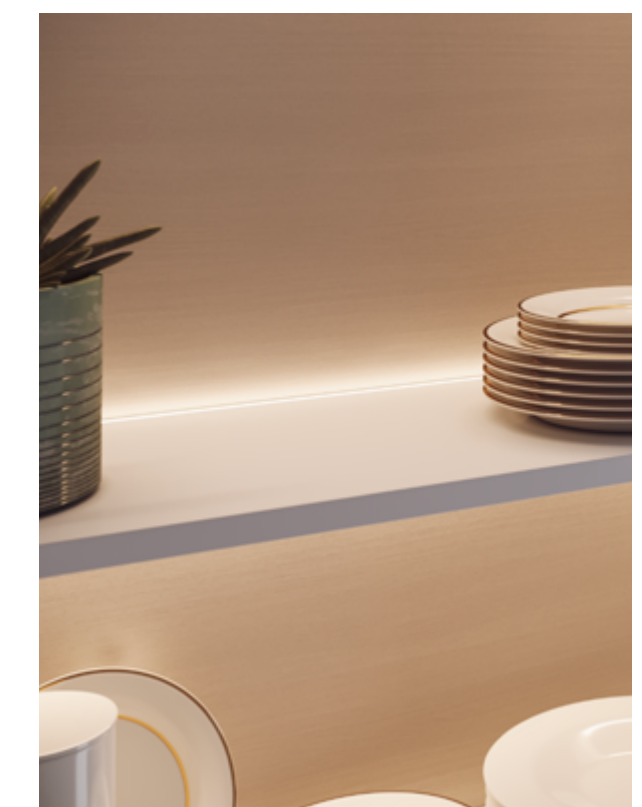

Horeca

The Horeca sector is wide and varied. For all these, we offer **unique and customizable lighting solutions** that are eco-friendly, and efficient, discreet, and elegant.

Contract

Commercial spaces, shops, offices, hotels, apartment blocks, and high-rise buildings are all facilities for which we design and implement **innovative LED lighting solutions.**

Our services

Custom service

We decided to take the path of **product customization** because each custom solution is unique, personal, and inimitable.

“Just-in-time” service

Thanks to the automation of the logistics system and the improvement of production processes, we offer the “**just-in-time**” service: products will be delivered quickly and on time.

Commercial consultancy

From the design phase through production to after-sales activities, the customer can count on the **support of Metalarredo’s sales team**.

Automated warehouses

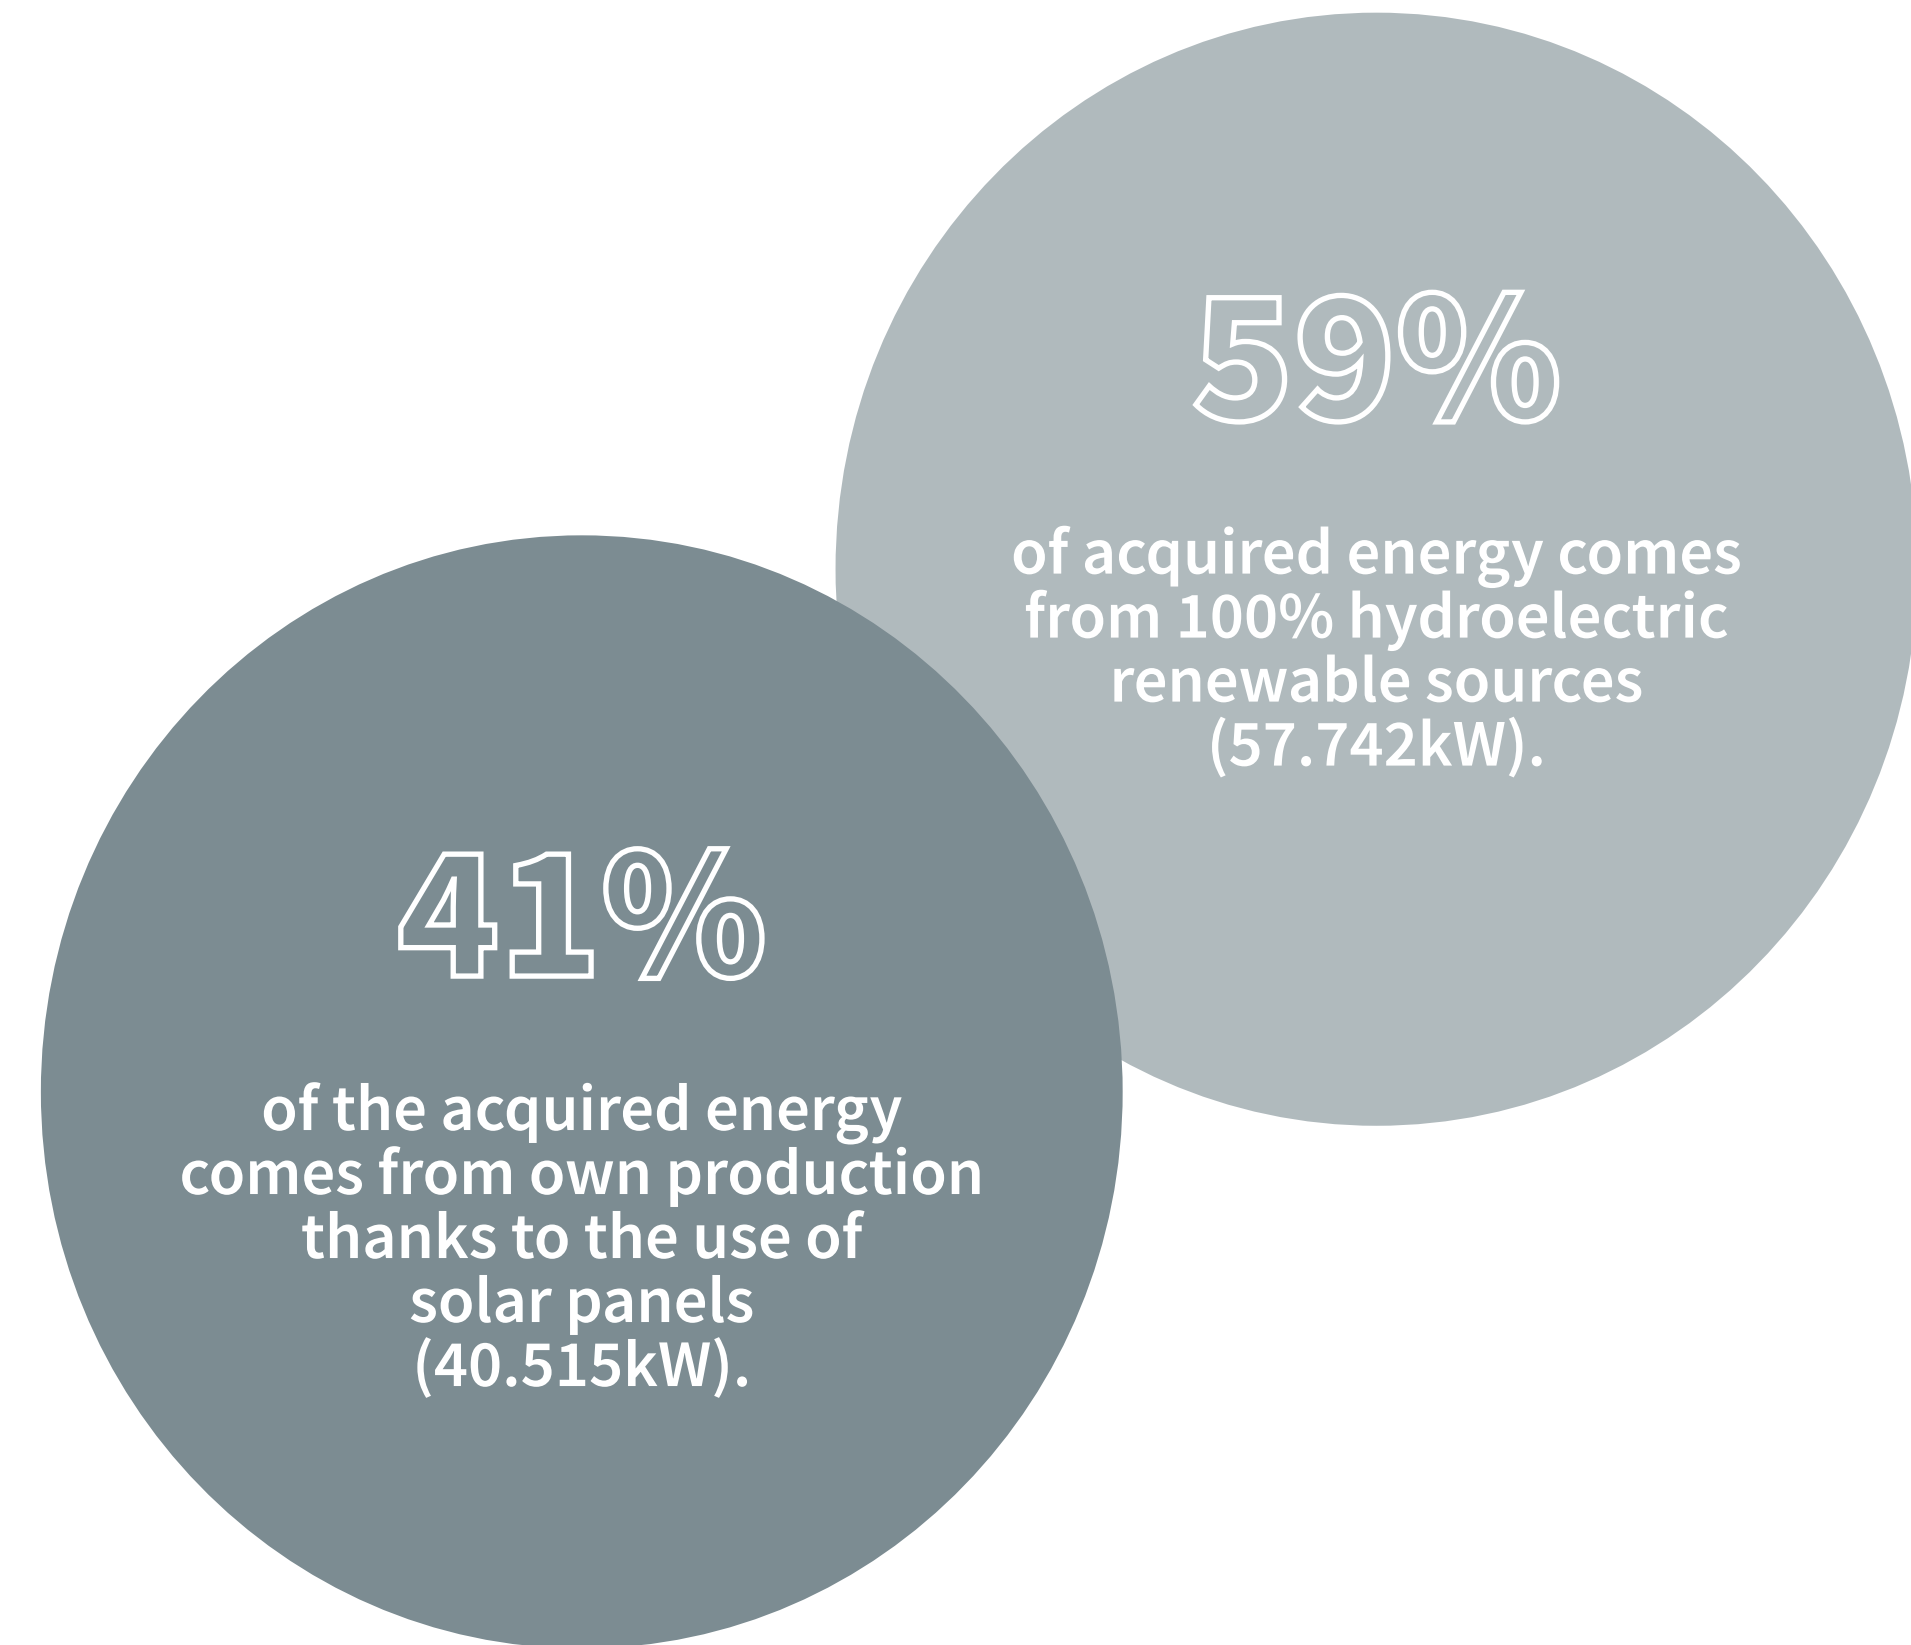

With **three automated vertical warehouses**, we have optimized space, saved time, reduced errors, and improved stock management.

Environmental sustainability

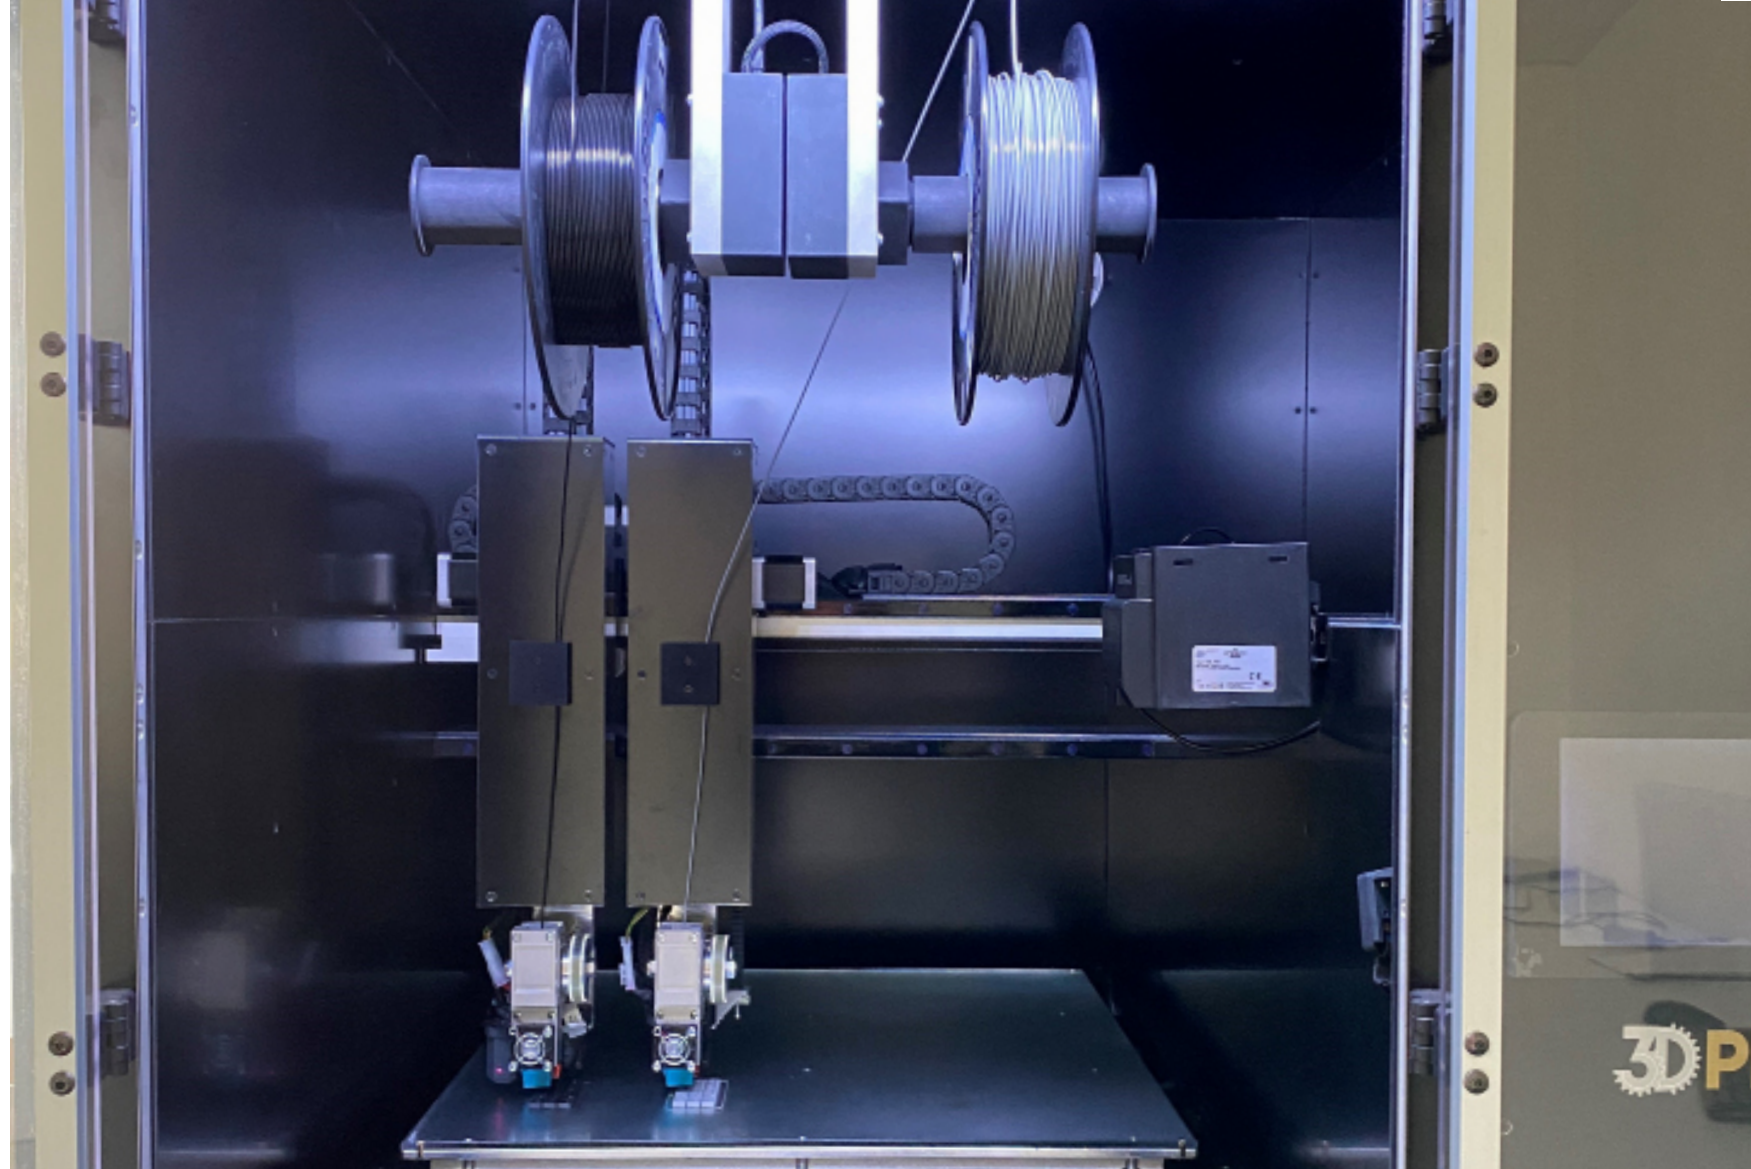

As a company that produces customized and innovative lighting systems, Metalarredo has decided to be **environmentally responsible**.

Therefore, the company has taken steps to adopt **sustainable practices**, which are aimed at achieving medium-long-term goals such as reducing production costs, respecting the environmental policies, and increasing the efficiency of the various processes.

In particular, the energy sources employed by Metalarredo come from **100% renewable energy** sources.

We light up your ideas

The versatility of the products, the capacity for industrialization and the enterprising spirit that accompanies work in the company, make **Metalarredo the perfect partner for the realization of new ideas.** Thanks also to the meticulous control over the entire process of design and prototyping, supported by 3D printer.

Metalarredo stands out for its **reliability guaranteed by the control over the entire process.**

From raw material to manufacture process: a trained and qualified professional team works with systems and procedures of ISO certification and state-of-the-art machinery for the measurements of light sources.

The company realises countless projects with a single denominator: the **attention and care that make each product a quality achievement.**
