PROFILE ROLLING MACHINES FROM ORT ITALIA

India has historically represented a major destination for [ORT Italia](#)'s products. The company, which can claim to be an industry leader in manufacturing profile rolling machines thanks to over 50 years of experience, cares to maintain a consistence presence in India by regularly attending the IMTEX in Bangalore. What's more, ORT Italia actively collaborates on a daily basis with agents located across the entire Indian territory, such as CP Agencies, thus keeping up to date with the Indian market's most relevant challenges and needs.

Today, ORT Italia's products range from single moving slide machines (RP) to triple-moving slide machines (3RP), offering great versatility in the rolling power, which spans from 10 to 150 tons. Among the most recent products developed by ORT Italia are the EVO models, which is short for EVOLUTION, indicating types of new generation machines with servomotors, a planetary gear box, PLC and a touch screen panel. These machines are characterized by high sturdiness and a compact frame featuring several innovative technical solutions for a quick, user-friendly set-up, including the automatic swivel angle adjustment, dies match research and Energy Saving. The company also manufactures the finning, burnishing and lapping machines.

During IMTEX FORMING 2024 & TOOLTECH, ORT Italia was present in collaboration with CP Agency, our partner on the Indian market. Our technicians and sales person were directly present from Italy t share the last innovations of our technology. The feedback from the Indian market is as usual very interesting for our field. The show has been a very good occasion to meet acquired customers so that possible new ones.

The company continues to successfully meet the industry's ever-changing challenges thanks to its ability to modernize its rolling machine models by offering a [wide range of machines](#), implementing the most advanced technologies and developing innovative solutions to integrated automation systems. Since coming to life 60 years ago, not only has ORT Italia produced over 4,000 machines that have been supplied all around the world, but it can also claim to be the first to have introduced key innovative solutions such as the three-die machines driven by hydraulic slides, the servo-motorized two-die machines and the CNC versions.

ORT Italia's reliability is further guaranteed by the ISO certification, which ensures that the company maintains a state-of-the-art quality management system through rigid controls and testing during each production stage, with the goal of keeping its quality standards high and its customers satisfied. Since February 2021, ORT Italia has also been an associate member of Italian Union of Machines Constructors (UCIMU).

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
