## HIGH PERFORMANCE AUTOMATIC LINES

Guttering full automatic line

OMERA has been active in the production of machines in the sheet metal-working market since 1951.

The company provides solutions for stamping and forming, offering a complete range of mechanical and hydraulic presses as well as trimming-beading machines.

It represents an international point of reference even for turnkey automatic production lines; these latter are the result of an integration of competences focused on the product besides to a close collaboration between departments and suppliers. Thanks to a well-tested working method, the experience and the organization, design parameters identifying solutions are defined.

The machineries implemented have a very high level of technological content and are optimized to achieve performances and reliability.

The different processing envisaged determines the performances: from the management to the handling of raw material, the definition of scrap evacuation systems, the optimization of space, everything is considered and analyzed. Special attention is paid to the selection of die makers who, according to their experiences and competences, work in coordination with OMERA technicians following active, established and certified procedures.

OMERA has been awarded with the certification of quality ISO 9001 in design and production processes since 1997.

This allows OMERA to present itself with extreme expertise, professionalism, team spirit and an experience gained in over 65 years of business activity.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
